

**DWI and DFSA Cases Received by HCIFS Toxicology Laboratory from 9/1/2018 to 7/15/2019 Updated on 07/15/2019**

Note: Cases were identified as "unknown" if the lot number was not readily apparent in photographs taken at evidence processing.

Analysts are actively pulling these "unknown" cases from storage to see if the lot can be identified. If the analyst is unable to determine the lot number, the case is marked as "cannot confirm."

Questions about a specific case should be addressed to the expert reviewer on the Toxicology Report or Chief Toxicologist Dr. Teresa Gray
